The 2009 U.S. Presidential Inauguration

"The citizens of the United States enthusiastically celebrated the inauguration of their 44th president in January 2009. The peaceful transfer of power always renews faith in the strength of democracy, but in 2009 the rise of an African-American to the nation's highest office also gave reason for pride at the nation's repudiation of the segregation and slavery in its past. President Barack Obama called it a day when Americans chose "hope over fear."

"We often read or hear about turmoil before, during, or after elections around the world. An important characteristic of democracy in the United States, however, is the regularly recurring peaceful transfer of power from one president to the next. Americans know when the next presidential election will take place – the Tuesday after the first Monday in November every four years. And power will be transferred to the newly elected (or re-elected) president on January 20 of the following year.
